# BCSSE 2008 Results

## Beginning College Survey of Student Engagement

---

The Beginning College Survey of Student Engagement (BCSSE) collects data about first year college students' high school academic and co-curricular experiences, in addition to their expectations for the first year of college.

The 2008 BCSSE consisted of questions regarding student high school experiences, and anticipated college experiences, which are broken down into the following six scales:

- High School Academic Engagement
- Expected Academic Engagement
- Expected Academic Perseverance
- Expected Academic Difficulty
- Perceived Academic Preparation
- Importance of Campus Environment

## *What is BCSSE?*

The BCSSE has been used in addition to the National Survey of Student Engagement since 2007 at 4 year colleges and institutions around the country. 2008 was the first year of administration of the BCSSE at TAMU-CC. The BCSSE is designed to be paired with the NSSE administration at the end of the students' first year, so that comparisons can be made between expectations and actual experiences.

# Beginning College Survey of Student Engagement

---

## *TAMU-CC BCSSE Administration*

The BCSSE survey instrument was administered in first year seminar courses (UCCP) during the first week and a half of the Fall 2008 semester (August 28<sup>th</sup> – September 5<sup>th</sup>). UCCP courses were randomly selected, and the surveys were given during the class periods. 1,200 surveys were distributed, and 93% of the contacted students completed the survey (n=1,119).

The Office of Planning and Institutional Effectiveness has compiled the results of the BCSSE 2008 survey in power point format with frequency percentage scores for TAMU-CC all first year students collectively. Because the survey is relatively new nationwide and has never been administered at TAMU-CC, there are no peer groups or national data for direct comparison.

If additional information is needed, please contact the Office of Planning and Institutional Effectiveness at extension 2242.

## Key Findings

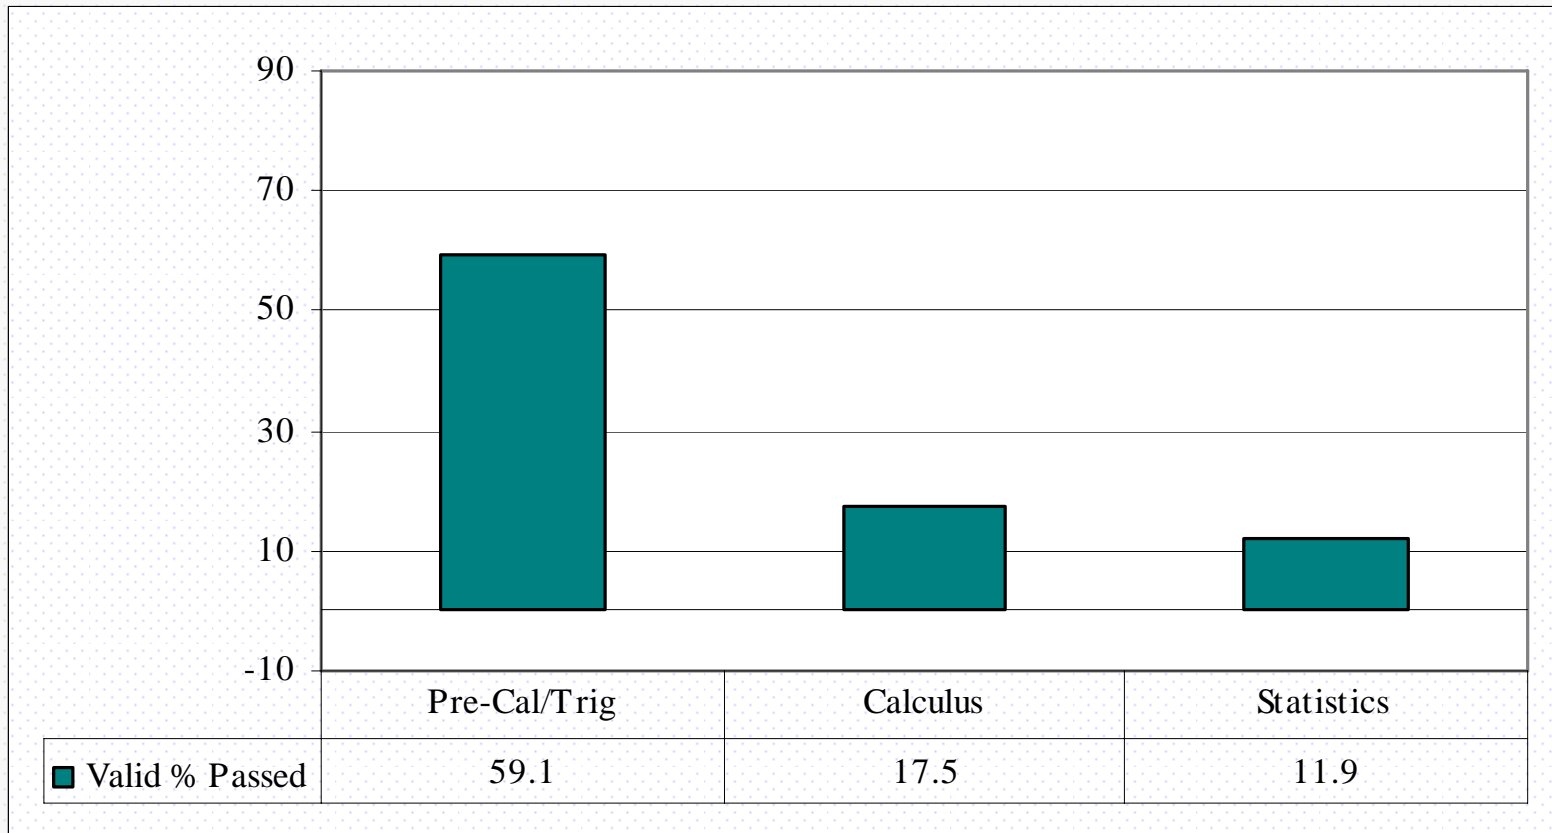

### TAMU-CC First Year Students: High School Experiences

- Incoming students report an average of B+ on the majority of their HS grades.
- 41.2% took 3 or more AP classes, and 37.2% report taking more than 3 Honors courses.
- The most common high school co-curricular activity was athletic teams (44.8% highly involved), and the least common was student government (4.0% highly involved).

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students did not participate in math courses higher than Pre-Calculus/Trigonometry while in high school.

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students took between 3 and 4 years of their core courses in high school.

	0 years	1 year	2 years	3 years	4 years	> 5 years
Total Valid % English	0.3	0.1	0.8	3.7	92.9	2.2
Total Valid % Math	0	0.1	2.3	41.5	50.0	6.2
Total Valid % Science	0.1	0.1	2.3	50.2	41.9	5.4
Total Valid % History/Social Sciences	0.1	0.6	2.4	13.5	80.4	3.0

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students expect their college grades to be similar to the grades they received in high school.

Paired Samples T-test ( $p = <.05$ )

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students expect to spend more time preparing for class (per week) in college than in High School.

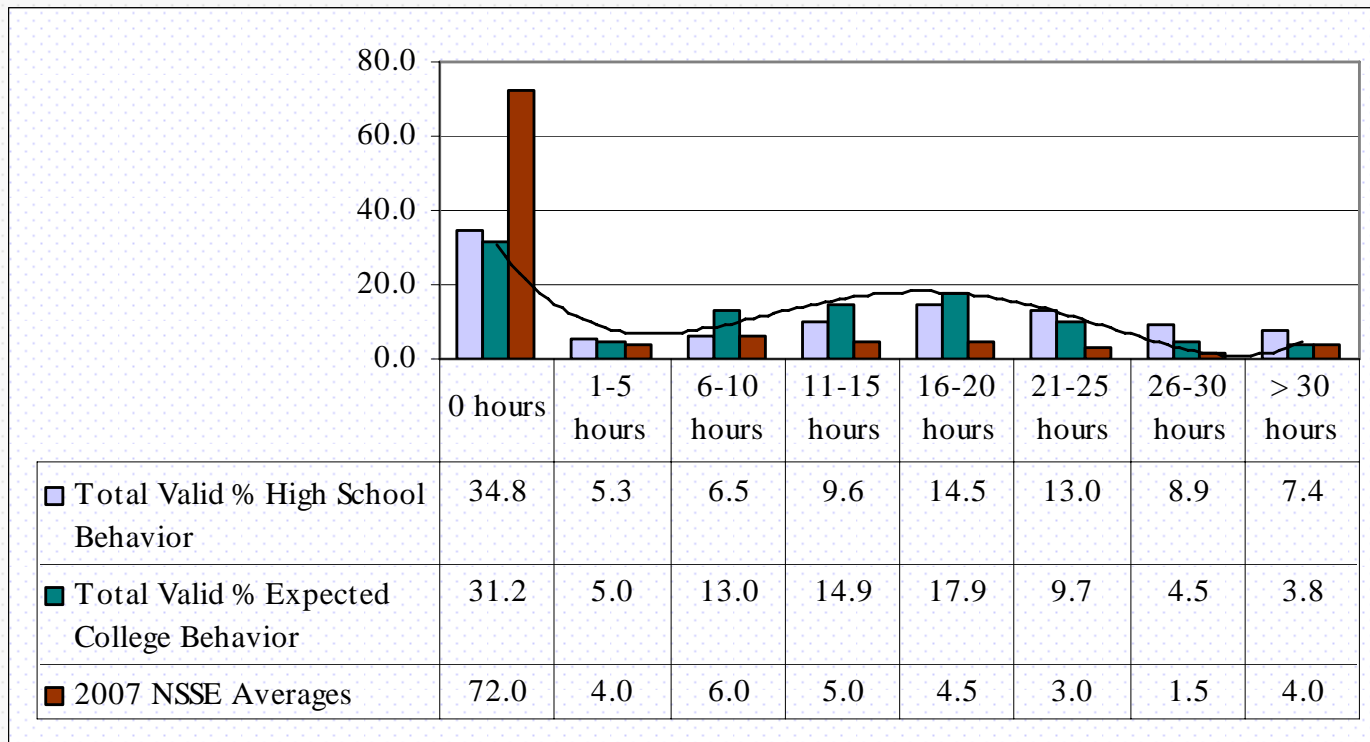

Mean High School Behavior = 2.78 (6-10 Hours) : Mean Expected College Behavior = 4.47 (11-15 Hours): (p = <.001)

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students **expect to spend about the same time working for pay (per week) in college as in High School.** Very few students expect to work full time (more than 30 hours per week), but over twice as many TAMU-CC students expect to work at least some hours than were reported nationwide on the 2007 NSSE.

Mean High School Behavior = 3.76 (6-10 Hours): Mean Expected College Behavior = 3.51(6-10 Hours): ( $p = <.001$ )

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students **expect to spend less time participating in co-curricular activities weekly (per week) in college than in High School.**

Mean High School Behavior = 3.97(6-10 hours): Mean Expected College Behavior = 2.74 (1-5 hours): (p = <.001)

# Beginning College Survey of Student Engagement

**Finding:** The majority of incoming first year students expect to spend less time relaxing and socializing in college than in High School.

Mean High School Behavior = 4.0 (11-15 hours): Mean Expected College Behavior = 3.42 (6-10 hours): ( $p = <.001$ )

# Beginning College Survey of Student Engagement

## High School Academic Engagement~ During last year of high school, about how much:

	None	Very Little	Some	Quite a Bit	Very Much
assigned reading (textbooks/ other items)	2.9	15.3	33.6	28.6	19.6
Writing short papers/ reports ( $\leq 5$ pages)	1.3	12.8	31.0	31.9	23.0
Writing longer papers/ reports ( $> 5$ pages)	16.5	35.4	28.7	12.3	7.1

## High School Academic Engagement~ During last year of high school, about how often:

	Never	Sometimes	Often	Very Often
Come to class not prepared	23.5	63.4	10.2	2.9

## TAMU-CC First Year Students: College Expectations

- Students expect a B+ on the majority of their grades in the coming year. This is statistically significant with the grades that the student earned in high school ( $p < .05$ ).
- 63.2% of incoming students state that they intend to graduate from TAMU-CC. Students with lower high school grades indicate more uncertainty about completion of their degree at the university.
- 46.4% of incoming first year students expect managing their time to present a difficulty.
- Students do not foresee problems making friends.
- 57.8% of students report that it is “Very Important” to them that the University provide support to help him/her succeed academically.
